ONLINE SURVEY

The Ditton Nature Reserve is a vital part of our local environment - for wildlife, nature and the quality of life for people who live nearby.

Wirral Council has dithered and delayed on a legally-required Local Plan to protect our Green Belt for the last 16 years. Now, the Government has demanded action. The Local Plan will not only outline green spaces to protect, but also where housing is needed. The current consultation for the Local Plan makes no mention of protecting Ditton Nature Reserve. Debbie is asking you to take part in the consultation and demand this site is given the protection it needs.

**We need to make sure the site is protected in the Council's long-awaited Local Plan. Here's how:**

Debbie is working with residents to save Ditton Nature Reserve

## The land sale has been withdrawn. So what's next?

**Thank you to everyone who supported Debbie's petition to save the Ditton Local Nature Reserve, after the land owner put it up for sale with Clive Watkin Estate Agents.**

Debbie's petition was handed to the Mayor at the last Council meeting.

Since then, we've heard the sale has been withdrawn.

Now, residents working with the group 'Wirral Wildlife' have called for the area to be

given extra protection.

Sadly, the consultation for the 'Local Plan' by the Labour Councillor for this area fails to even mention the site!

Debbie and Ian Lewis are working together to have this important site protected once and for all. We don't want this site to be lost to yet more housing and we certainly don't want more houses built on the flood plain!

See the back page for details on how you can finally have your say!
